Subject: ARF & FSP - Miller Chemical Fire Response sampling

Dan,

Attached is an analytical request form and approved field sampling plan for residential well water sampling that will be conducted at the Miller Chemical Fire Response site. This is an emergency response and we do not have an account number for the ARF just yet. As soon as I know the account number and spill ID I will forward it on to you. This request is being submitted for a DAS case number for data validation only. Please contact me if you have any questions.

Thank you,

Ex. 4 - CBI
